

NUMIRA BIOSCIENCES TO EXHIBIT AT NEUROSCIENCE 2011

Numira to showcase its latest in In-Life, and Imaging Services for Neuroscience

SALT LAKE CITY, Utah, October 25, 2011 –Numira Biosciences, a specialty contract research organization and leader in high resolution, 3D imaging services and visualization software for the life science market, today announced that they will be exhibiting at the upcoming Society for Neuroscience 2011 Conference on November 12-16, 2011, at the Walter E. Washington Convention Center, in Washington, DC. Numira will exhibit in Booth #1005.

“We are looking forward to exhibiting at the Society for Neuroscience Conference,” said Michael Beeuwsaert, President and CEO of Numira. “This gives us an exceptional opportunity to meet face-to-face with current and future clients, while showcasing our new and existing services for studies involving pain, neurodegenerative and neuromuscular diseases.

The Society for Neuroscience’s Annual Conference is the premier venue for neuroscientists from around the world to debut cutting-edge research on the brain and nervous system, with more than 30,000 attendees searching for the latest products and innovations.

About Numira Biosciences

Numira is a rapidly growing provider of specialty contract research services to the pharmaceutical and medical device industries. Through the combination of several novel technologies and capabilities, we provide clients with an unmatched array of pre-clinical services for their research programs in inflammation, cardiovascular, oncology, pulmonary, renal, bone, and other areas of disease and/or therapy. Moreover, we are a recognized leader in high-resolution, quantitative imaging for drug and device development. Numira, a privately-held company, is venture-backed by vSpring Capital, the Tech Coast Angels, and Crocker Ventures. For more information on Numira, please visit www.numirabio.com.
