NUMIRA BIOSCIENCES OCCUPIES NEW LAB & OFFICE SPACE

The Company's growth fuels need for expanded laboratory, image processing, and software development space.

IRVINE, Calif., June 9, 2008 – Numira Biosciences announced the move of its Salt Lake City operation to the Research Park business complex near the University of Utah. The new facility, located at 560 Arapeen Drive, Suite 250, Salt Lake City, UT, 84108, is the new home of the Company's laboratory and imaging service operations as well as its image processing group and software development team.

About Numira Biosciences

Numira is a specialty contract research organization (CRO) that provides powerful imaging solutions for researchers attempting to answer questions related to the onset and progression of disease, drug efficacy, and drug safety in animal models. Through the combination of proprietary stains, high-performance visualization software, and microCT scanners, we offer a dramatic change in how data is captured, visualized, and analyzed.
