

NUMIRA BIOSCIENCES TO EXHIBIT AT 2011 OARS WORLD CONGRESS

Numira to showcase the latest in In-Life, Soft Tissue and Histology Imaging Services

SALT LAKE CITY, Utah, August 22, 2011 –Numira Biosciences, a specialty contract research organization and leader in high resolution, 3D imaging services and visualization software for the life science market, today announced that it will be exhibiting at the upcoming 2011 Osteoarthritis Research Society International (OARSI) World Congress September 15-18, 2011, at the Hilton San Diego Bayfront, in San Diego, CA. Numira will exhibit in Booth #10.

“We are looking forward to the upcoming OARSI conference,” said Michael Beeuwsaert, President and CEO of Numira. “We are excited to be showcasing our new In-Life services, as well as our existing pre-clinical Imaging technologies and services.”

The annual OARSI Congress is a global forum for all people involved in osteoarthritis research and treatment: basic scientists from academia and industry, clinical investigators, radiologists, rheumatologists, orthopedic surgeons, allied health professionals and policy makers.

About Numira Biosciences

Numira is a rapidly growing provider of specialty contract research services to the pharmaceutical and medical device industries. Through the combination of several novel technologies and capabilities, we provide clients with an unmatched array of pre-clinical services for their research programs in inflammation, cardiovascular, oncology, pulmonary, renal, bone, and other areas of disease and/or therapy. Moreover, we are a recognized leader in high-resolution, quantitative imaging for drug and device development. Numira, a privately-held company, is venture-backed by vSpring Capital, the Tech Coast Angels, and Crocker Ventures. For more information on Numira, please visit www.numirabio.com.
