**NUMIRA BIOSCIENCES PROUD TO PARTICIPATE IN THE 15TH ANNUAL
SUSAN G. KOMEN SALT LAKE CITY RACE FOR THE CURE[®]**

SALT LAKE CITY, Utah, April 5, 2011 –Numira Biosciences, a specialty contract research organization and leader in high resolution, 3D imaging services and visualization software for the life science market, announced today that it is sponsoring a team for the 15th Annual Susan G. Komen Salt Lake City Race for the Cure[®]. *Team Numira* is comprised of company employees, their friends, and family members. The 5k walk/run is being held on May 7, 2011 in downtown Salt Lake City.

This important cause, which Numira is proud to support, has generated a strong response from employees. More than 90% of Numira's Salt Lake City staff has registered to participate with *Team Numira*.

The Susan G. Komen Race for the Cure[®] raises funds for local programs offering breast health education and breast cancer screening and awareness. Recently ranked 2010's number one most valuable non-profit brand and the charity people are most likely to donate to by Harris Interactive, the Susan G. Komen Race for the Cure[®] series is the world's largest and most successful education and fundraising event ever created for breast cancer. Through events like the Susan G. Komen Salt Lake City Race for the Cure[®], the Salt Lake City Affiliate has invested \$4.1 million in community breast cancer programs in Salt Lake, Utah, Weber and Davis Counties.

About Numira Biosciences

Numira Biosciences is a rapidly-growing, specialty contract research organization (CRO) that provides powerful imaging solutions for researchers attempting to answer questions related to the onset and progression of disease, drug efficacy, and drug safety in animal models. Through the combination of proprietary stains, high performance imaging software, and MicroCT scanners, we offer a dramatic change in how data is captured, visualized, and analyzed. Numira, a privately-held company, is venture- backed by vSpring Capital, Tech Coast Angels, and Crocker Ventures. For more information on Numira, please visit www.numirabio.com.
